Guadalajara, Jalisco. 45017

Dear. Mr. Yee:

I am writing to apply for the position of Cloud Development Engineer, as advertised on Intel's careers web page. I have included my resume for your review.

In addition to my experience as a development engineer, I have an excellent knowledge of design patterns, scrum work methodologies, and cloud services in AWS. Most recently, I worked for Axtel S.A. de C.V. in Middletown at GDL as a student intern software developer responsible for developing and maintaining web Apps. While I was there, together with colleagues, we designed and created a database from scratch for new systems.

Thank you for your time and consideration. I have attached my resume for further review. Please do not hesitate to reach out via phone at +52 33-1329-3225 or email at fhernalvarez@yahoo.com.mx if you would like to speak about my experience in more detail.

Best regards,

Francisco Hernandez Applicant
